Maybe the day of the gas station is past. After all, when you stop at the Shell sign, we can do a lot more than fill your tank. Gasoline is just one factor that determines mileage.

We can help you go farther

When you stop at the Shell sign, we can check your tires. The right pressure will give you better mileage. We can check your spark plugs. If they're worn, you could be wasting one gallon in every tankful.

We can check your air filter. If it's dirty, that's more wasted gasoline—and money.

We can suggest many more gas-saving secrets. We want everything right with your car when we fill your tank, so Super Shell can really show off.

Super Shell for good mileage

It's a good mileage gasoline for one good reason: the formulation.

There are no secrets among Super Shell's ingredients, and most are used in one competitive gasoline or another. But no two refineries use all of the same ingredients in the same proportions.

Super Shell has five ingredients for good mileage. (1) Platformate contains extra-energy petroleum molecules

(2) TCP works to keep spark plugs from misfiring. (3) Butane helps you start quickly. And the quicker you start, the less gasoline you use before you get going.

(5) Mixed Pentanes help your engine warm up quickly to prevent misfiring, bucking, coughing and wasted fuel— whatever the weather.

But as we said; gasoline is just part of the story. Mileage is our business.

We really should call them Shell mileage statione—if you'd like to go farther.

There was a time when recreation was symonomous with aport and the outdoors. It will be to considerable extent. Propie still be to a considerable extent. Propie still However, in this so-called age of leture recreation is taking on new significance. Both mind and body are involved, to the extent even that Belleville has not only a recreation director but an assistant, to map out community activities.

community activities.

Recreation more and more is becoming a community effort, although it must be admitted that public response is frequently negative, in this materialist world, people tend are second to more and we produce a fulr number of competent golders and athletes—but where on our local scene for Instances would we find potential Davis Guy (international tends) pilysers. The available courts in inclination which are the properties of the control of the cont in they are getting.

As we have noted, recreation involves other activities besides sport — and here it is largely a matter of individual state. Some it is to play bridge or read a book. And by and large, when the thing of the control ther than going out to watch a paraceople prefer to go it alone.

people priefe to go it alone.
Thus we may be a iong way from the kind of situation enviaged in a film at Loryalit. College recently. It showed how schools in Flint, Michigan, are used as centres for social, cultural and sports activities. The meeting heard suggestions that greater co-operation by local bodies could result in more effective use of community facilities, avoiding duplication in the process and swring more, fuctor as an example of ranh duplication was the school (Moins adordary with inadequates and the contraction of the contr

### A Case of Equality

Wages for waiters were stated to be \$1.82 an hour and for waitresses \$1.13 an hour. The judge ordered the hotel to pay waiters' wages retroactive to the day she was hired.

retroactive to the day she was hired.

At a time when men and women generally are still unequal where wage scales are concerned, this is one instance where those who are performing the same basic task—waiting on table—have been recognized accordingly. It is a situation moreover where the employer likely can well afford to pay the same wage scale to both men and women.

### African Horror

Reading of the appalling atrocities being perpetrated by African troops in the Nigeria-Biafra civil war one is reminded of the Mau Mau rebellion in Kenya some years ago.

Mau rebellion in Kenya some years ago.

Whether the horror atems from the same, kind of tribal oaths that-made a felish of perversion, brutality and tofrure in Kenya or from plain animalism is immaterial. In Kenya it was black versus white, in Nigeria it is a bloody civil war in which African is matched against African and the living there is not only uneasy but punctuated by some of the vilest deeds known to man.

That, unfortunately, is still Africa today. There is a veneer of civilization, but essentially it is still a primitive continent.

#### School Back

It is back to school again and more than 10,000 young people in Belleville alone are attending the public and accordary schools as classes resume.

as classes returns.

There are the usual problems of getting into the work and study hightim after the long summer break, as well as administrative difficulties like those involving overcowding in the grade 9 and 10 secondary occupational classes. Some students, as was pointed out the other day, have to wait for an opening created by students dropping out or leaving for jobs.

up students dropping out or seaving for John.

Before long Loyalist — the new community college — opens its doors at the Wallbridge Road location. One, two and three-year programs in a wide variety of courses ranging from business secretarial to social welfare and applied agrology and livestoch management are being offered. There are some 25 courses in all.

Autumn traditionally is a busy time for students and school staffs. With the commun-ity college now firmly established we can expect close co-operation between its administration and the schools. With regional control also coming into being, co-ordination of the entire educational system for the benefit of the student should be all the easier.

Nevertheless, one hears of difficulties experienced by individual students in finding a place in the subject or program of their choice. It will be important to try and cater to individual needs as far as possible.

For their part, achool and college administrations about have greater regard for student aspirations, and maintain regular contact with attudent representatives on matters of curriculum and attudent welfare. Students and staffs are now part of a growing community operation, of total involvement in the educational process.

### Rangers,

### Tally Ho!

By GEORGE IL CARVER

On a Salmen Lake unfari last week, the sight of hunding lodge, renway and cool, car-pated forest floors, draw needable remarks from one of the party.

He recalled that over the years innova-ses had been introduced to facilitate the arvesting of the lordly stag, the dainty doe and the fredicesons fave.

I recall some five years age that Don McNevta well-known butter-man, bunter, hereassa and farmer, set a precedent that could have resulted in ref-casted, bosted and-sparred hunters, stirrup cups, hust breakfasts and box carry-morating indicine settled hunting ludge, cabla, cettage and re-

"Pepper" a handsome strawberry rean ust past three sit the time, never hatfod a prachair as the rifte cracked twice, seant other from her head.

She stood from like a warborse statue, a she lazily switched her tall at imagin-files, yawaed and indicated it was time her mid-morning hay-and-oats break.

It was the first time, lands and forests officials told no later, that live venious had been shot from the hurricase deck of a deer-lusting Dobbin. And, they added, there's no law against it.

And what's more, "Pepper," It neems, was endowed with an 'stra, equine sense. Seconds before the deer broke ever and before ber ider was aware, she pricked up her ears, looked straight sheed and whizaled in herse-talk "They're coming, boon."

But later her pride was hurt. She didn't sind prancing the master of the hunt into cer-questing action but doing pack-duty is nother thing. That kind of work is for pack-tables not well-bred quarter horses.

They protested. The oder of dead bear is not exactly Chancel Number Five and even a horse has its pride. They sweeted and pranced and did as equine version of the "twist" before consenting to b-come pall-bearrys to a pair of hreits corpores.

I don't know if one of Don's forebears a a colonel of cavalry but he told me at time "I've always had a yen to shoot a or from a horse's back."

He decided to train "Pepper" as a deer-hunter's hunter. It wasn't necessary, He took her into the woods for a gunshy test. He braced kinnell for a mighty holst into a nearby tree before he biand a shot at a sequirrel in a tree-top and was surprised to fluid bianell in one piece.

For "Pepper" never moved. He fired to more shots to make sure. The strawber-ryoun never budged, just switched her tall if it say "Is take gay McNevin a mat's ocan't he know one of my ancesters was ith Custer at the Little Big Berni"

On another occasion McNevin's rifle pped out of the scalebard while going rough brushy country. He dismounted to trieve the weapon and went to the horse resume the hourse.

# Own a \$45,000 package of life insurance .§15 amonth.

If you have a young family to provide for, you may think you can't afford the kind of life insurance you really need. Allstate says you can.

Allstate offers life insurance values that are specifically designed for the young family man. Values like this:

Say you're 24 years old. For less than \$15 a month, you can get more than \$45,000 of solid life insurance protection. It includes \$40,000 in decreasing term insurance... plus \$5,900 in permanent life insurance, the kind that builds, a cash savings fund. All for less than \$15 a month. than \$15 a month.

Giving people their money's worth is just one of the Allstate principles. And why Allstate is the young family man's best buy in life insurance.

# Commercial Grower Finds Hard Work Equals Money

Of primary importance to the tomato canning industry is the commercial grower, many of whom in the Prime Edward County area grow up to ten acres or more of the raw product.

The tomatoes are sold to the canning ideal at an much of hard work,
And possibly the hardest
job involved is the backbreaking task of picking the
ripened fruit.
It's not like the apple harvect where a once over completes the job.
Rethes it's a continuing nonton the price determined contract and according to

pieces the job.
Rather it's a continuing process with the picking having
to be done as the fruit ripens, ending only when the
tomatoes are all picked or
when frosts call a halt.

## Picton's Future

The news from Picton these days is discouraging. After several predictions that the army would remain at Camp Picton, the likelihood now is that the camp will be

vacatad.

That is the word from George Hees, AP for Prince Edward Heatings. Mr. Hees told Pickon Robitation and Pickon Robitation Minister Cadleux had indicated as much in a conversation he had had with the minister. The former trade minister in the Dietrobate government also said the prospect of a big sirried in Prince Reward County to be commodate the giant new jumbs jels, had rised as a result of a Department of Transport in easiers. Comanda would be confined to Turopto and Montreal.

Torogous and Montreal.

One piece of good news is Mayor McFarland's recent amountement that a major
industry emphoring some 250 people is
expected to be established in Picton scon.
There is take to a possible extension to ProcieraBilez, but with a strike at this plant now in its
fifth week there is a size the more dismal
possibility of the company moving out of
Picton.

Meanwhile, Picton would do well to heed Mr. Hees' suggestion regarding establishment of an industrial commission to help attract new plants. The community will prosper only to the extent that it can bring new enterprises

## TV Violence

While U.S. lelevision programmers are said to be cutting down on films depicting violence, other examples of real-life horror may be found emanating from TV ereens. The CEO labenight news recently afforded such a scene — the shooting of an unarmed Biafram soldier by a Nigerian officer, and the execution of the latter by a firing aqual after he had been condemned for the earlier

## Tops With Drums

The Knights of Columbus-St. John's Girls' Drum Corps of Brantford is so popular it has had to turn down nearly 90 invitations to participate in parades and shows this season.

One of the questions the girls are asked et often - particularly in view of their attractive appearance and uniform — has to do with why band members never smile.

Well it is against the rules of the Canadian Drum Corps Association. They are not even allowed to move their lips while on

Disciplined? Yes. But how do they Try it with your lips sealed indefinitely, and it is not easy. Perhaps it is a case of practice making them perfect. Drum major Mariene Sobolewski for example is 19 and has been in the band five years. The band, moreover, has had numerous successes in national competition.

# Busy Bee

Summer is still around - as we were reminded the other day by a fat and busy bee.
We had stopped to admire a fine display of flowers in a private garden on Pinnacle Street, a sweet-scented sanctuary amid the ever-present throng of traffic, and there was this bee. It moved from bloom to bloom and was still humming around with evident expert judgment of their honey-bearing propensities when we moved on. And there came to mind those lines of W. H. Davies; "What is this life if full of care we have no time to stand and

### Phoney Money Passed in Trenton

TRENTON — The bogus bill threat has received a new use on life here as \$40 in phoney money has been reported the Trenton Police Department.

the Treston Folice Department.
The constrictive money showed up in the form of one
bill and two 510 markers. All were reported to be found
the Toronto Dominion Bank.
A police spekerman said, the bills were part of night
coits made at the bank.
This recent counterfeit threat bears no resemblance to a
copy bill puray which had struck the Quista area a month

pp.

By August 12, a total of \$100 in bogus bills had been assed in the area but these were made up mostly of \$10 life which had the same serial souther.

#### Poverty in Canada

The word is poverty, and it is being heard more and more these days — surprising as it may seem in a country as supposedly affinent as this, with one of the highest standards of living in the world.

In Toronto recently four ragged children were caught stealing. The amount was not much—\$10 from a dance studio, but it emerged that this was a regular pastime encouraged by their jobless parents.

A young woman on the staff of the studio took pity on the ill-clad and hungry youngsters. She washed them and bought them youngsters. She washed them and bought them elothes with her own money and at first did not inform the police. Eventually the case came to the attention of both police and welfare authorities.

The case is typical of many in the disturbing situation outlined by the Economic Council of Canada.

Lounce of Canada.

In the harm light of statistics it adds up to this: more than four million Canadians are on the powerly line—more, says the council, than society can tolerate, more than the economy can afford and far more than existing efforts can cope with.

Interesting the statistics of the control o

entisting efforts can cope with.

Incredibly, housands would be better off
on wetlare. In 1985 one-fifth of Canadian
milles had an average tomose per family of
\$3,263. Yet according to Towato Metro welfare
commissioner. John Anderson, under the
provincial family benefits act the family would
get more than \$2,000. In short one of the
provincial family benefits act the family would
get more than \$2,000. In short
per more than \$2,000. In short
less than the provincial family benefits and
personal prife, officials point out, prevents
many from applying for help.

The Economic Council calls the abituation

many rum applying for help.

The Excended Counted tails the situation
a "matismed disgrace." The report is at timely
and poverty clearly is one of the matters that
must be given urgent consideration. Prince
Minister Tredeau has spoken of a "just
gelety" but to logicy from the Excendic
Council's report. Canada is fee from a
realisation of the ideal.

#### Keeping Fit

Few men are as physically fit as tennis professional Pancho Gonzales. In the U.S. open tennis championships Gonzales, one of the great players of our day, disposed of a number of rising young stars before going down finally to Tom Okker of The Netherlands.

Fit as he is, the pace had begun to tell on the Mexican-American. Following his defeat of second-seeded player Tony Roche of Australia and before taking on Okker, Conzales said: "Muscles don't respond the way they used to. A man my age can play two and perhaps three tough matches but then the legs start getting wobbly. I'm very tired."

Playing as much tennis as he does, Gonzales should be fit. But at 40 he is slowing down. What then of the rest of us, especially those in their 40s, who get little or no exercise?

Well we are just that much more wobbly . . . tired!"

### Koratron Initiated the Permanent Crease

The parase "permanent press" didn't exist until Kor-atron was introduced to the

But once people saw the results of Koratron Company's new patented process they began to get the idea of what permanent press could mean.

Here were clothes that would always keep their fit, shape and their freshly pressed appear-

They could be machine washed, and machine dried time and time again, without once need-ing to be pressed or touched up

with an iron. Before long, a number of people were attempting to achieve the same results with methods of their own, and began to label their products "permanent

Some of them were quite good imitations of the real thing: inmenticions of the real thing; in-deed they were so much better than anything that had been cold before, R's little wooder that the consumer bought them, wore them and tourhed them up without complaining.

Gradually though, consumers found that clothes carrying the Koratron trademark didn't need any touching up at all, and so they started to ask for Koratron permanent press by name.

More and more quality manu-facturers realized that it was worth paying for the privilege of using the patented process in order to make roal permanent

Today you can find the trademark Koratron on pants, shorts sport shirts, blouses, skirts, raincoats, zip-fronted jacketsearefully enough

At the moment, a Koratron garment will almost always be made of cotton or rayon blend-ed with a synthetic fibre such

### Clothes Never Need Ironing

And just why in the world hould anybody buy Koratron

Well, the steam iron companies might buy up Koratron so that they keep their market or perhaps the dry cleaning busi-nesses might do the same to

keep pressing.
As for the general public, reasons for purchasing Koratron are a little more beneficial. First of all, Koratron clothes

machine wash, machine dry, and they never need ironing . . . not even a quick sweep to touch

them up.
Secondly along the same line. Koratron clothes keep pressed creases and pleats always: that And they keep flat seams,

darts and hems for the same length of time. Naturally, any clothes that are going to be worn occasion-ally pick up a few wrinkles.

But here is the place that the word "always" does not fit Kor-Koratron clothes shed wrinkles within minutes and continue to look smooth and nest. They

### Koratron Two Step Process

The Koratron story is really a very simple story. It is a patented process.

The process is basically a two step process. First, chemicals are impregnated into fabric at the mill level, and the fabric is finished in such a way as to leave these chemicals inert or tmactivated within the fabric.

econd, the garment manufac turer, after he cuts and sews his garment, presses the gar-ment into its required finished shape, and then bakes that shape into the garment in a curing oven.

Ing oven.

This curing oven activates the chemicals that were left in the fabric by the mill, and changes them, so that they become part of the fibres within the fabric, and give it its ahape retaining. crease retaining properties. This change in the chemicals makes them water insoluble and

makes them water insoluble and therefore, they are designed for washable garments.

The Koratron application at the mill is sometimes referred to as a post cure finish. By this it means that it will be cured or baked after the garment is made. This is quite a radical departure from the standard will neighbor them. departure from the standard mill practice. Normally, a mill will ship a fabric from the mill, in a completely finished, ready to use state. Sending a fabric out unfinished is the part that is

If it is new for the mill to ship out unfinished fabric, it is also out unfinished fabric, it is also quite new for the garment mak-er to change his operation around to become not only a garment maker, but a fabric finisher. His finishing of these post cure garments, is the area that is new to him.

# There are no secret ingredients in Super Shell. Just know-how.

Making gasoline is a little like making a martini.

Most people use the same ingredients, but not everybody knows how to put them together for best results.

There are no secrets among Super Shell's ingredients, and most are used in one competitive gasoline or another. But no two refineries use all of the same ingredients in the same proportions.

#### 5 mileage ingredients

Super Shell has five ingredients for good mileage.

(1) Platformate contains petroleum molecules with extra energy built into them.

(2) If your spark plugs missire, you waste gasoline. TCP helps to prevent this.

 Butane helps give fast starts. And the faster you start, the less gasoline you use before you get going.
 A detergent fights deposits that can build up inside the carburetor. These deposits burt your mileage.

(5) Mixed Pentanes help your engine warm up quickly whatever the weather. This prevents misfiring, bucking, coughing and wasted fuel.

These five ingredients make Super Shell a good mileage gasoline.

You'd expect it to come from Shell. After all, mileage is

#### How to go farther

Everybody at Shell wants you to go farther. We think about all the things on your car that can hurt your mileage. Like soft tires. A dirty air filter. Worn spark plugs.

We look for new ways to help you get better mileage. In summer and winter. In city traffic and on the highway. Because mileage is our business.

Pull in at the Shell sign-if you'd like to go farther.

#### The Divorce Phenomenon

mplating the increased number of marriages being ended under Canada's new divorce laws, one is reminded that there are as many reasons for people obtaining divorces as there are new grounds on which opting out of the marriage contract can be effected.

Adultary aids, people seek divorce because of breakdown not so much in the marriage but in their own mental makeup. One or both partners does not "understand" the other when in fact each does not understand himself.

For one thing he or she does not For one thing he or ahe does not understand the principles of psychology or the reasons why people think and act the way they do. Awareness of these would contribute to the kind of relationship each would desire for himself and for the marriage.

Because of the immaturity that militates against this kind of understanding there is created a vacuum, a void which invariably is filled by the dangerous basics of personantheid. For instance, criticism . . . incr nations...nagging...jealousy and all the other negative qualities that contribute to the separation of two people who fail to understand the principles of human behavior.

Other factors contributing to marriage breakdown of course are lack of respect for yows made in church on the wedding day, lack of respect for the marriage institution itself and lack of respect for each other.

and lack of respect for each other.

Many marriages could be saved if the couples understood human nature better, learned how to think positively and eachew the negative aspects of their nature. How much better also life would be if they would focus to on the best sides of their respective natures, emphasizing their mutual interests rather than dislikes — and important too, learn to leave each other alone on cocasions.

Education, or lack of it, has much to do with success or failure of a marriage. In an "anything goes" age it is small wonder that the sanctive of marriage and the family unit have come under dangerous pressures.

In Niagara Falls, Ont. the other day, a Toronto educationist, Dr. J. R. H. Morgan told high school principals that the "permissive" approach of the highly-acclaimed Hall-Dennis report on Ontario education "work work."

A Methodist minister from Dallas, Texas, concurred, saying: "I don't believe that a child will turn out to be an acceptable social being unless he is subject to certain disciplines and

It is the lack of such discipline, and of an understanding of human nature, that has led to such phenomena as the hippie cult and the kind of social breakdown associated with the startling increase in divorce applications in startling increase in divo our contemporary society.

#### Theatrical Venture

Belleville, if theatre guild director Richard Howard has the support of his executives and the community at large, is in for a venturesome season of drama.

For a "violent anti-war" production

cheduled in the coming months, Mr. Howard predicts sharp reaction. He thinks people will be "very upset . . . some will cancel their assemberships and I hope picket the theatre."
That resily would be something — for Selieville. Last week Mr. Howard said he had

soit determined yet what the people of Believille want and need. However, he does have about seven productions lined up, from Theen's The Doll's House to the nerican premiere of an Australian play about nvent life, and the anti-war drama.

Of the latter and the possible reaction to it. Mr. Howard told Belleville Rotarians the other day, "It is because I hope we can do mething significant in Belleville."

Fortunately, perhaps, for the sake of the survival of theatre in Belleville the guild's program will not be all blood and thunder and shock. There will be a Christmas presentation of the perennial "Cinderella," of interest primarily to the children, although to anyone who has seen pantomine in Britain, Cinderella and other such folk tales were always popular family entertainment during the Christmas and New Year period.

Mr. Howard is clearly interested in

children and in how they — and adults too — can benefit from theatre. Speaking of the club's interest in crippled children, the theatre director told Rotarians that theatre workshops are being planned for children and teenagers as a means of developing their powers of as a means of developing their powers of expression and personality generally. He said similar programs have been in being for some time in Britain and Europe.

Another interesting theatrical project of Mr. Howard's is a historical drama about Belleville, Mr. Howard says it will not be a pageant but rather a presentation reflecting developed. Nevertheless, it might be pertinent to compare such a play with the Centennial duction in 1957 of, for example, the city of Port Arthur, The Lakehead community on that occasion presented a historical pageant which was the kind of real community effort envisaged by Mr. Howard.

And it is community effort that is coing

And it is community effort that is going to be needed if the theatre guild's ambitious program is going to be the success it deserves to be in Believille.

# CH OF OUR

Believe it or not, there are some people who think the quality of our beef varies from store-to-store

It's not true! Every one of our Meat Departments offers the same high-quality beef,

the only quality we sell... "SUPER-RIGHT" Quality. Our quality specifications for "SUPER-RIGHT" Beef are so high that some beef graded "No. 1 Red Brand" just isn't good enough to be labeled "SUPER-RIGHT."

This one "high quality" policy for all stores applies to all the meats we sell. It is true, that where customer demand calls for it,

you will find thicker steaks, double lamb chops, etc., but they are all cut from the same quality meat that is available in every A&P Meat Department. After all, to satisfy customer demand is just plain good business.

One other thing we want you to know. No matter where you live, if you want that thick steak, double lamb chop or any cut you don't see in the case, just ask for it. WE CARE about, and want to satisfy, every customer ...

and we mean every customer.

The 38-momber Canadian Inte-letic Union is ocstatic about it.

But we wender how the average Canadian sports fan feelt about yesterday's anseeme-ment of a 19-year agreement between the two bedies giving the CBC exclusive over-rights to "all major university athletic exceeds"

We (the inx-paying public) paid \$100,000 the privilege, and perhaps we are entitled pender the investment.

"Poothall has remetted a popular specia-for speci at Canadian universities during this decade and now college hecky and bankthall are again beginning to draw enthusiastic crowds," a CBC assouncement of the agree-ment beasts.

This opinion, even if true, can hardly be seed as an authoritative polt of the Canad-a sports-minded fraternity.

eliki hypoto-missee anternay.

No doubt, students at the various colleges
maintain some level of interest in the perform-nace of their respective variety tides, but
college spect in Canada just doesn't cut the
mustard fan-wise, by any unbiased estimate.

South of the border, there's no doubt about it. Football "Bowt" games, intercolleg-late basketball classies, and A.A.U. track moets will pack stadients and burn out picture tubes from coast to coast.

But since when should a Canadian "lele-port" enthusiast be forced to watch a football 'ame that won't even half-fill Varsity todium?

Ask the university students you know how closely they follow the performance of their varsities — chances are, in all but the most extreme earse, you'll get the expected amount of alms mater "rah rais" to the time of: "Boy

"But how many games have you seen?" "Well, I don't really like to tie up my ordays, you see, but I'm sure, etc., etc."

As a matter of fact, Canadian university issued seem to be more ardest followers of oliege sport in this country than the under-raduate bedien.

What the CBC is trying to pawn off on us as a major spect coverage even seems to be notibing more than another futile attempt to cover up their failings to keep pace with CTV bidders in obtaining rights to sporting events of a proven breader interest.

Since the new actuesk came on the scene a few years ago, many Ontano viewers on an acclusive CSD program diet, have found them-scives envying neighbours who reliak healthy CTV nervings of mid-succk NHL hockey and CTV football games, to same just two.

Wo're short-charged out of enough major sporting attractions without the CSC trying to cost the pill by inferming us we can expect an increased number of what will be, at best, second-rate events.

(Exceptions perhaps being in track and id, and swimming, along with a few other mapic-competition events.)

Myou want to soo how well or poorly your 110,000 has been spent, tone in this Saturday to the CBC's "exchasive" coverage of a University of Manishoh Bisson Waterioo Lutheran University Golden Hawks game.

#### Plaza Project

While Belleville awaits an Ontario Municipal Board decision on the establishment of a new shopping plana on North Front Street, it is appropriate to note that there is wide support for the project, objections from some quarters notwithstanding.

ns call for a capital investment up to \$3,000,000 for a shopping complex that would include department stores and serve a population of more than 1,00,000 people in lieville and the surrounding area developers believe too that rather than taking business away the plaza would complement the entown establishments by creating interest in that area among visitors.

Another distinct advantage, of course, uld be the approximately \$100,000 in taxes that would accrue to the city, as well as an improved assessment balance in the city's north end. Council, city residents and other businesses generally are in favor of the project.

Meanwhile, the growth of Belleville and the evolution of a city that one day inevitably will include other communities of the Quinte region may be imagined with fealism in light of the fact that a population of more than 100,000 will be served by the plaza.

At the same time it is important to take seriously the warning of an Ontario department of agriculture spokesman to the annual meeting of Ontario Chamber of Commerce executives in Oshawa. One of the most serious threats to agriculture according to Dr. H. L. Patterson is urban sprawl. There was a danger, he said, in the use of agricultural

Dr. Patterson said that since the population of Ontario will double by 1980 land use should be given top priority. He urged more effective land use zoning, improvement in the quality of production and more up-to-date marketing methods.

marketing methods.

#### "Mod" Nun

"The Swinging Nun" was the caption and it showed Sister Regina Ann of Toronto talking with the Rev. Cornelis Rijk of Rome, and Fr. Jean Roger of Jerusalem at the International Conference of Christians and Jewa meeting in Toronto earlier this week.

Coming hard on a recent picture of the 
"mod" garb of a young woman official at a 
Roman Catholic gathering in Bogota, 
Colombia, Sister Regina Ann's contemporary 
looks and mode of dress are nutrite evidence of 
a less rigid outlook on life being adopted by the 
various Christian denominations — an attitude 
that in no way militates against traditional.

FRE ON FIRES

VANOGUVER (CP) — Viscourse International Airport's
fire fighting brigate now has
six vehicles. The latest is like a
bread wagon with a ren turner
on top that can spray fire-sortly
ing chemical 100 feet at a
1,000-pound pressure for 20 reonds. The new first best factor
is that it is a one-man optration. The driver aims at the
blaze and fires.

Quite Rough Stuff (See Page 10)

WHEN YOU'RE READY TO SCRIMAGE, you're ready to play" — or so said one Quinte Secondary School player. The coaches might disagree, but with the opening game a week away scrimage has to start. After only one week of practice, Quinte back Eric Emerson looks pretty good as he carries II around the end.

# **Ouinte Team on Defensive**

Coach Rick Locks of Quinte Secondary School has a problem unique to winning coaches.

As head coach of the Bay of Quinte League football champs in 1967, he has to convince his 1968 yaund that every game they play is going to be their fourther.

we play is going to be up for us. They want to beat the best and we were unde-feated last year. Besides that, we put a lot of teams down by embarrassing margins last year and they're going to be coming back-looking for revenge."!

problem seems to be re bering to invite the relief eve to the celebration. Earl Wilson sbut out Oakland Athletics 30 on 10 hits Friday night. This, combined with sec-end-place Baltimore O rioles' 10-2 loss to Cleveland Indians, cut Detroit's magic number to five. Any combination of Tiger victories or Oriole losses total-ing five wraps it up.

ing fire wraps it up.
Wilson's shutout was the sererth straight complete performance for the Detroit staff. The
last time manager Mayo Smith
had to summon help from the
bullpen was Sept. 4.
In other American League
games Friday, the streaking
New York Yankees swept a dou-

bleheader from Washington Sen-stors 4-2 and 2-1, Boston Red Sox shut out Minnesda Twins 3-0 and Chicago White Sox edged Collifornia Angela 2-1. #### Women in Politics

Canadian women according to a nationwide survey conducted by The Hamilton Spectator don't flock into politics "because they are never wooed, there is prejudice against them mostly by other women, and if they are elected, they could not take the physical and nervous pounding of the daily

These are some of the reasons given by government leaders, opposition spokesmen and provincial and city politicians, says Spectator writer Anita Latner in a summation of the results of the survey. The question put to them was: "Why don't more women enter politics?"

And here are some of the views expressed: Former State Secretary Judy LaMarsh, "There are lots of good women around, but they are ver wooed. People just don't think of asking them to run."

Opposition leader Robert Stanfield, "It is partly tradition . . . women just don't think of themselves as politicians."

NDP leader Tommy Douglas believes can change the opinion of "the arrogant male" by getting into municipal politics where they can display their intellience and capability. But he feels women "still suffer from a social hangover dating back to the pioneer days."

David Lewis, another prominent NDP man, "There is an unjustifiable prejudice about encouraging and voting for women both by men and women." The latter, he added, were just as prejudiced as men.

Mr. Lewis blamed the news media for a good part of the prejudice and inferiority inflicted upon women. "Instead of drumming the issue on the women's pages, they should be selling the idea on the 'think pages' of their wspapers." An interesting point is another one expressed by former immigration minister Ellen Fairclough. She said the average women can scarcely expect to walk out of a domestic life directly into a political one,

wa a compate me circuty into a pollitical one.

"You have to train for it," said Mrx.
Fairclough who echoed the words of Mr.
Stanfield when she said, "Most women
spontaneously think of a male candidate." She
warned too of the strenuous routine of politics
and the need to be "tough morally to take the
criticism without backbiting."

criticism without backbiting."

Miss LaMarn, incidentally, had to be prodded somewhat to say her piece. Perhaps ahe has had her fill of politics, for to the question, "why don't more women enter politics, has replied gibly, "Because they don't go into politics." And then, "Row the heli abould I know. Read my book this fall and find out."

Other stimulating views were expressed by Ada Pritchard, PC member for Hamilton Centre at Queen's Park: "Women are not aggressive enough. Men seem to have dominaggressive enough. Men seem to have domin-ated-polities for so long . "Tom Lowe, chaltman of Hamilton Board of Education," "All they (women) know is housekeeping . . . they are too picky over small items and let the big ones go right over their heads." And Max. Maclinis, widow of Angu Maclinis, one-time CCF member of parliament, "We have got to get women thinking past organizing a home, and lato the community life and away from the idea that success is getting ahead of everyone else."

What about Prime Minister Trudeau? It seems he had little to say on the subject. Writer Anita Latner could not dig up anything said by Mr. Trudeau and apparently did not said by Mr. Trudeau and apparently did not approach him directly. Still, it is an interesting emiss-section of views.

#### Olympic Sidelight

With the Olympics approaching in Mexico City athletes are giving thought to that old problem of visitors "south of the border down Mexico way."

It has been called various things, notably "Montesuma's revenge," and it has to do with the quality of the food and the water. "Intestinal problems," a recent report described it — and neatly at that.

Athletes may take heart however at the news that Mexican health authorities are taking precautions to ensure that standards of satisfies precautions to ensure that standards of annitation are maintained and thus guard against illness of this nature. And well they might. Not only is Mexico's national prestige at state, so too is that of the many athletes seeking medals for their countries. Anglican Priest's Career

# A free book-for people who want to go farther.

What happens to your mileage if you drive with worn spark plugs? Or a faulty choke? Or brakes that are dragging? Most people don't know.

That's why Shell has written a book. All about mileage. (Mileage is our business.)

The idea is to help you go as far as possible on every gallon of gasoline. That way you can keep your car in top running condition and save money.

Mileage is more than gasoline
This book—32 Screey—calls the mory.

There are facts for, air falles tire pressure, spark plugs.

(Did you know that a dirty air filter can cut your mileage by 10%?)

The information comes from Shell research laboratories, Shell dealers across Canada, the automotive industry and professional drivers.

A Shell dealer would like to give you a free copy of 32 Secrets. He'd also like to help you solve your mileage problems.

Mileage is his business, too. After he corrects the little problems, then Super Shell can really show off.

#### Super Shell for good mileage

Super Shell has five ingredients for good mileage.

(1) Platformase contains petroleum molecules with extra energy built into them.

(2) TCP works to keep spark plugs from misfiring.

(3) Butane helps give fast starts. (The faster you start, the less gasoline you use before you get going.)

(4) A detergent fights deposits that can build up inside the carburetor. These deposits hurt your mileage.

(5) Mixed Pentawas help your engine warm up quickly to prevent misfiring, bucking, coughing and wasted fuel. You'll get good mileage from Super Shell with these five ingredients. You'll get even better mileage with the help of our book.

See a Shell dealer,

(If you haven't visited Shell before, this would be a good time. The book is free. And there's bound to be a dealer nearby.)

On the rare occasions when
pork tenderloins are "specials" you want special recipes
to make the best use of them.
The stuffed tenderloins (below) siliced cold, served eight
adequately. So they are stretchable. The marinated tenderloin is less trouble and gourmet - ish.

#### Field Hospital

Mrs. Dorls Deryaw and Mrs. Marjorie Caterer, Reg. N., staffed St. John abulance headquarters, soon transformed into a hospital as walkathon participants were brought in for restorative treatment.

#### They Serve Everyone

St. John Ambulance nursing division personnel found two dogs among the patients they cared for at the end of Saturday's walkathon. Miss Vivian Hannah giver Rover a quick check-up after she completed the 30 mile walk

#### Bobo of Belleville Doesn't Bark Up Trees, He Climbs Them

What goes up must come down or so they say. However the miniature poodle, whose pet name is Charlle Brown finds it much easier to go up trees than he does to come down them. Charlle

Brown belongs to Garnet Barnes of 6 Carl Street in Belleville and if he wasn't registered one might think there was a little squirrel blood in him somewhere. Anyway, it's obvious that Charlie doesn't

think of trees in the same light that most of his species does . . . they're more of a challenge to him than anything else and one of these days he's going to perfect the journey down.

#### CNE Grounds to Straddle Circuit

Auld. Ontario minister of tour-ism and information, Monday disclosed a \$1,000,000 plan to disclosed a \$1,000,000 pan to build a world-class' car-racing circuit through the Canadian National Exhibition grounds. The plan calls for paving of the CNE stadium—home of To-ronto Argonauts of the Eastern Football Conference—and run-

cuit to wind through the grounds with the start and fin-lihe in front of the CNE grandstand.

John Bassett, Jr., president of Lakeshore Raceway, said plans are to form a public company. Other officers include Don Hunt, general manager and director and racing driver George Eston

Just when CFL fans were getting used to the fact that there are no more bosoning to the fact that there are no more bosoning to the fact that there are no more bosoning around, along comes Hamilton's Joe Zuger, boofing the hird-down acrials at a whopping 45-yard-average cibp.

The Argonauti' Buve Mann seems to be deping a foot comeback, his 47-plus-yard erage punts the best state he broke in as speedy Toronto back.

Out west, Ed Ulmer's footwark provides one of the few enjoyments these days for Winnipeg Bine Bomber fams, with his punts in the 42-yard range.

In the past few seasons, CFL fans — urticularly those is the four eastern cities were beginning to think a punt was just mething you went flahing in.

This year's apparent resalizance of the art strengthess the popular Canadian conscition that the rouge — or single-point lick— is one offered or the play has over the touth-of-the-border hrand.

The threat that a well-placed hick can cost you a one-point loss, or put you deep in a defensive hole in your own end of the field is one with which every CFL coach must cope.

Just ask Bud Grant, who cursed the ele-ments and Joe Zuger a copple of Grey Cups ago when his Blue Bombers found the youldn't best the wind-abetted Ti-Cats, at east partly because they couldn't get a pant in the Hamilton side of centre field.

And if members of the CFL punting iteratty are kicking up their heets this uon, the place kickers aren't exactly ak kneed, themselves.

Britis; Calumbia's Ted Gereta alogic-factedly robbed Ottawa of victory in their weekend encounter, baseling 'FIVE field goals, including a 35-yarder, tils perfor-mance was tood enough to kelp the Llous salvage a 22-3 draw with the 'castern con-ference leaders.

version attempts to help pad their point total.

It mightn't be a had idea for two accoring races to be set up — one for the pointgetters who use their feet as well as hands
— and the other for the strictity offensive
players — runners and receivers — who,
after all, provide the real excitement behind
figures on the sourchourd.

ian troops are pushing toward Umuahia, breakaway Biafra's last major town, and the city may fall in seven to 10 days, informed sources said today.

The push follows the capture of Owerri two days after an eight-bour assault with heavy armor and infantry led by Col. Benjamin (Black Scorpion) Adekunle, commander of the 3rd Marine Commando Division.

Federal reports here said the Biafrans fought tenuclously for Owerri. Federal troops holding Aba, captured 12 days ago, were moved in to help hold Owerri.

Owern.

No federal troops were killed or wounded, the reports said, adding that civilians who had flied into the bush are already returning to their homes.

Radio Biafra said today Russian-built Uyushia bombers of the federal air force made raids of Umushia, killing five persons and destroying several bomes.

#### The Monarchy

Among the tightropes Prime Minister Trudeau must walk in his parliamentary baptism, one involves the subject of the narchy.

Monarcry.

It climet be denied that the royal connection has lost some of its impact in Canada in recent years. And this despite the Queen's successful visit to Expo last year. The old bypaties remain among a large segment of the population, but the country's growing anism and independence inevitably have led to a slackening in the ties with Britain. The Maple Leaf flag, the raising of the status of O Canada to a position of eminence ahead of God Save the Queen . . . ese are other signs along the way.

Critics of this trend call it "creeping ablicanism." But more precisely, it seems . to be no more than a natural process evolution, part of the business of a country wing up and finding its own way.

In the recent Throne Speech no reference was made to the Queen or the Commonwealth. A government spokesman described this as an oversight. Yet it would be naive to believe there was not more to it than

The Times of London sees it this way:
"Many English-speaking Canadians will be
shocked, but others will see it as part of their
new French-Canadian leader's tactics for euvring separatism in Quebec, balancing his insistence that the new official languages bill shall open the entire country to the minority and its language.

"If Trudeau succeeds, Canadians will probably think that taking the Queen for granted in the person of the Governor-General was worthwhile."

General was worthwilte."
It is an interesting theory, Meanwhile it
must be remembered that Mr. Trudesu

My bouse looked fairiy presentable and so did my husband's shirts, which I irozed. And sobody ever died from my cooking. Any more questions?

DEAR ANN LANDERS: I am getting plenty fed up with eading that worn out line in your column — "When you marry divarced man you'd better be prepared to put up with the whole pack — his kids, his ex-wife, her relatives, old frieods — la bla" and more stuff and nonsense.

Did bia" and more stuff and noncense.

I married a divorced man and I made it plain in advance
that I was not going to be bothered with any of the aforementioned kooks. My hunband's exwife is a religious familie who
belts down martinis with one hand and reads the New Testament with the other. Her children look just like her and they
act like her, too. Sometimes I think they do not even belong to

With this is mind, the Belleville Minor Spects Association heads hate a 9 s'clock Priday night meeting at the Revenue Contro determined to create a sound have fee operations that involve the interests of an estimated 3,540 city youngstern.

The Association has suffered from anon-ymity largely because "they're always had the responsibility, but not the authority" to earry out their objections, says 1968-89 president "Cy" Coulson.

"We needed something to co-ordinate the growth of the existing sports under the Association's jurisdiction," says Cy, "while at the same than cope with the emergence of new once. — like minor increase, soccer, giver bothball, and track and field — that want to join un."

He says the proposed addition of these trities to the Association's membership shiesed with the existing minor becker, thall, baseball, and junior weight-lifting listes, will require the planning of an 1,460 erests next year.

The Association's executive council— with membership from each affiliated or-gasization, the four Association officers, and two city recreation representatives— proposes to do this by assuming the re-sponsibility of keeping the filasancial houses of their eight members in order.

This will mean regulating sponsorship rements — (a good way to keep spon-contributions uniform throughout a giv-minor spot!) — and the registration fees d by each of the 3,560-or-so youngsters the saloor spots programs.

And the Association proposes that a letailed study of financial statements and reparate accounts from each affiliated sur-trees become the awarme task of their vestral treasurer, this year [amiliar local portionan Cilif "Sonay" Belch.

The 14-member executive council would study budgets urbmitted by the members (such as the Minor Softball Association) and attempt to curve deficits with austi-nace from the city Parks and Recreation Board grant, and public subscription rais-ed by the United Community Services.

Adoption of the proposed new consti-tion Friday night could eliminate many nancial worries that habitually plague the dividual minor sport groups in the city.

The Association is to be commended for assuming the overall responsibility. Its effects, in conjunction with those of the executive members from the eight organizations in represents could result in an invaluable streamlishing of minor sport backing in the city.

Slam It In!

And the seniors' coach has worked to make it that way. Individual

drills, scrimmage, and defensive form pointers take up a big part of the time on the Centennial practice field.

Centennial's defence is its strong point, said coach Doug Irvine.

This week, the president received 2 letters from the same customer. The first one was written during the time of the Loblaw Customer Survey but the writer left town before she had a chance to mail it. It said, in part, "I take a dim view of any organization that charges more than any other supermarket for almost every active."

When has returned home has tweek and visited her Lobbus store, has at doorn and work another letter—his time mailing it, along with her entire note so that we could see how completely one over the country of the country of the country of the country "red've doorn a material (a). Not only did we save money on the shopping, but my husband enjoyed the trip. This is a rare featt like lother the weekly shopping trip as a rule. If this continues, you've gained another regren almost every time I bought. In fact, I even stocked up on some hispar."

#### Pioneer Aviator

Tom Wheeler, who ploneered bush aviation in Canada is above relaxing in the garden of his St. Jorite home. He founded Wheeler Altines in 1921 as a means of reaching his hunting camps in the north. In 1900 he sold his face of 39 planes to Nordair Ltd., keeping only one small piane to ferry hunters to northern hunting camps. Now retired, he samples hunting and faithing in many parts of the world.

Grech ringues have been arriving in considerable numbers, some of them in the Quinte area. Elsewhere, an Othewa report tells of the arrival of a young couple who were married in July and were honeymooning in Vienna when their country was invaded. Bottard Ambrose 25, speaks axi languages, including English, and he admits to being more proficient in some than others.

His English may be colloquial, with even suggestion of Irish slang — for instance, "I hear you have a right free country" — but here was no doubting his sincerity when nherviewed on arrival at Uplands alrort in Diama." I feel very good to be in Canada," he

His wife, Elena, 23, speaks no English. A teacher in her homeland, she speaks a little French however. Mrs. Ambros and her husband are being sponsored by an Ottawa

Canada is fortunate in having this young couple and other newcomers from Czechoslo-wakia. Like their forerunners from countries like Hungary, Estonia, Lithuania and Latvia they have one advantage over native Canadians - freedom is all the sweeter to embrace once again after it has been lost for a time.

As Mr. Ambros put it: "I hear you have a right free country."

#### Student Housing

Students of Queen's University seem to have a legitimate gitimate complaint over shortage of dation in Kingston.

To dramatize the stuation a group of them camped on the front lawn of Dr. J. J. Doutsch, principal of the university at the weekend. A dozen tents, a bonfire to combat the night chill and a guitar or two were features of the three-day "tent-in."

The weekend demonstration was orderly, the same time there were other, more mous, straws in the wind. Talk for instance ominous, straws in the wind. Talk for instance of a possible takeover of university buildings. It happened at the Sorbonne in Paris during the riots there. It happened at a school in St. Leonard, Quebec, more recently, during an English-French language dispute.

in Oriousty Queen's requires more student residence space. At the moment many are at the mercy of landlords who charge rents beyond what they are able to pay, while on the other hand favoring those who are in a sition to pay.

A lack of proper accommodation for students is not conductive to academic advancement. Rather, it aggravates the climate of unrest that has taken hold of student bodies in universities across the land. Consequently, where there are legitimate remulative supersity authorities the second nts university authorities should act to

#### Subversion in Quebec

Some laugh at the idea - of communist seemts at work in Quebec, trying to foment revolution and cause dissatisfaction among the young people. Yet here we have none other than Creditiste leader Real Caouette saying just that.

Mr. Canutette is one of those people of
whom it may be said: he has his head screwed

All light-duty Dodge and Fargo Sportrucks have a completely re-engineered "Cushioned-Beam" suspension for 1969. The new suspension system greatly improves handling and ride, and makes the new Chrysler-built trucks, in the words of a Chrysler spokesman, "the sweetest-driving pickups on the road today". On all Dodge and Fargo Sportrucks, great emphasis has been placed on passenger-car styling and convenience. Interiora have been upgraded in style and lusury. The range of options now includes automatic transmission with the gear selector lever mount-ed on the steering column - power brakes, transistor radio and Sure-Grip Differential. See story on

The 1969 Imperial ... majestic and so magnificently new, has prastige and authority in every line. Completely redesigned. Imperial is free inched longer overall, with increased rooms indeed — new companis, for example, shoulder room. Imperial is also heaving a superbounder room. Imperial is also heaving a trial type. It is front suspension. Imperial has a horizonte to the control of the control of the thorouse-test lotton-but front suspension. Imperial has a chromosted to train-other front suspension on highways, on carses and in traffic. They reduce sway. One deditional step has been

taken to improve the ride. Imperial's torsion bars have been completely insulated with rubber cushions. So they won't transmit road

noise through the frame to the passenger compartment. They help produce one of the quietest, most lauvirous rides you will ever enjoy. Consider now the brakes. Imperials has dase brakes at the front. They're better. That's why they're standard on all Imperials.

As you step inside Imperial for 1969, you enter one of the most elegant passenger compartments ever designed. Deep, sumptious

seating arrangements. An instrument cluster that is bathed in soft ultra-violet light. Richly-crafted fittings and appointments. Wall-to-wall carpeting underfoot. And ahead of you as you sit in the driver's seat, a standard engine that will accelerate to 60 mph in only 10.4 seconds, from a standing start.

Imperial for 1969 is a majestic car. It is also an expensive car. And rightly so. When you spend this kind of money, you aren't buying basic transportation, you're looking for the best. And that sums up Imperial for

## Announcing your next car

#### the great new Chrysler

Whether it is the Chrysler 300 2-door hardtop or any one of fourteen other Chryslers, your next car will be as much of tomorrow as of today.

It will have an aerodynamic body and frame that is one: you close the curved side windows and the car, from beneath the door to the roof overhead, presents a beautifully rounded, unified shape, Inside the curved, soundproofed interior, you are luxuriously isolated from road shock, heat, wind, cold and noise.

Your next car will have a torsion-bar suspension system and a choice of seating arrangements that transform the bumpiest road into a tranquil experience.

Your next car will have a softly-lit instrument cluster. Complete with a miniature memory system, if you wish, that warns you when seat belts are not in use, doors are ajar, fuel is low.

Your next car may be temperaturecontrolled year-round. Warm in winter, cool in summer, all at the setting

of a single control.

Your next car will be a beautiful combination of size, performance, comfort and elegance.

Your next car can be one of fifteen luxurious model choices.

# New 69 Dodge/Fargo Pickups with New Cushloned-Beam Suspension are SPDH FRUITES

Sure they look great, inside and out. But you've got to drive one to believe it. New Dodge and Fargo Sportrucks with new Cush-loned-Beam Suspension ride like a limousine, handle like a sports car.

The reason? Chrysler took the elastic off the bankroll to completely re-engineer the suspension and steering. A sway bar was added. Springs re-desigend. Liners added and a lot more to make these new Sportrucks the sweetest handling pickups on the road. But that's not all. The new Sportruck not only looks better on the outside, it's a lot more comfortable on the inside, You can even get

buckets. Carpeting. The works. All the pizzaz that goes to make driving a pleasure. Ask your Dodge or Fargo dealer about the new Sportruck...and then drive one... GREATI

In addition to his exciting line of 1969 cars and trucks, your Dodge and Plymouth dealer also has a great selection of reconditioned Dependable and Top Quality Used vehicles. Be sure to see them. The prices are right, and the choice has never been better!

But I'm just about fed up seeing Nor-man's antics written off as "colorfni," and his unpredictable fits of boorishness attrib-uted to his "not wanting to be bothered."

There were reports of "Normanisms" in the Gilford, Out. pro's one-day sojourn in Belleville at the Bay of Quinte Country Club's July 1st "Pro Day" event. Norman, who fascinated the large gal-leries with a sparkling, characteristically fast-paced round of gelf, was somewhat less entertaining to a number of unsuspecting

Several persons related how they were dely ignored when they approached Nor-in as ADMIRERS, wanting no more than pass the time of day with him. It waxn't a question of being spoken to abruptly — it was not being spoken to AT ALL that perturbed them.

Anyone's entitled to their quirks, but if you make your living from your popularity with the public, we think a little common courtesy is in order.

#### Drugs' Is Confusing Ethical

Dear Dr. Moiner: I have seen a number of references to "ethical" drugs. Forgive my ignorance, but what are "unethical" drugs? Can you

anything, the drugs that mainly meant by those ch are not included in the n "ethical" would be the prietary ones, that is, the ious mixtures which are explain? — J. L. P.
Can try.
For all practical purposes,
we could very well discard
the term "ctalcal" in this respect and use the term "pre
scription drugs." That's what

urious mixtures which are idd without prescription. Some of these are very use-d, when used with proper digment — remedies for radache, itching, dry skin, sect bites and other allsect bites and of her air-min. There are many.

The ones about which I have reatest reservations are the tatent medicines which indi-ate, or at least hint, that they re "cures" for serious ail-ents. I have in mind those presented as being "good

#### United Appeal

GIVE THE UNITED WAY. This and other enjoinders remind us once again that the United Community Fund of Believille and district is conducting its annual campaign.

Target of the campaign which opens officially on Monday and continues until October 7 is \$118.300.

The United Appeal benefits many worthy causes. It affords help for the physically handicapped and the retarded. It assists the work of the Red Cross and St. John Ambulance. It aids research into such ailments as arthritis and rheumatism.

Funds are also made available for work among the blind and for minor sports and other recreational purposes. In all, the work of 14 organizations, including the United Community Services, is furthered.

Staff and voluntary workers of the United Community Services have been busy preparing for the campaign. Contributions toward the \$118,300 target come from payroll deductions and cash donations from employees in 30 large industries and 750 business firms, as well as public service groups, armed forces personnel. professional people and private citizen

To operate the campaign requires the services of approximately 600 persons. It is truly a community effort and giving the united way ensures maximum benefit to all the organizations involved.

#### War of the Sexes

In a recent presenation of Pierre Berton's late-night program, "Under Attack," producer David Susskind put up a spirited defence of male domination against students of Toronto University, specifically three young women panelists who advocated a much freer role in society for the female of the species

The students' point about educational rtunities for women was well taken. But so too was Mr. Susskind's contention that women, and married women in particular, should acknowledge the dominant role of the male, even in these changing times. Women said Mr. Susskind, should retain their feminsaid Mr. Sussamo, anouto retain their remin-ity. He took the view that the woman, by her attitude, kindly or otherwise, could make or break a marriage. Assuming, of course, that the male was doing his best to be the ideal

And yet, one wonders how Mr. Susskind's concepts of the perfect marriage (he is married to former Canadian TV personality Joyce Davidson, who is his second wife) and of men and women at large, tally with the views of some observers of the North American

For instance, "American men are aloba," a disenchanted European wrole recently to advise columnist ann Landers. "American women," the same writer said, "are the most vulgar, overdressed, overbearing females on the face of the earth. Your children are insulferable. They are brash, undisciplined, and clearly in control of their parents. ."

and clearly in control of their parents..."

Or what also ut this from actives Zoa Zoa
Gabor. Asked how, cooking apart, a woman
could facinate a man, she replied: "Being
natural, femilaine, and looking after him. No
matter how lough a man is, he's a baby and

or have been a seen and the state of the seen and
the office of the seen and the seen and the
coffice I can't take it."

Which in a commerce more was abit left.

Which in so many words was what Mr.
Susskind was saying. The man works all day.
When he gets home in the evening the wife, if
she uses her "noodle" as Miss Gabor so
ploturesquely phrases it, can be the great

# French Franc May Be Devalued Before Long

An AP News Analysis
By STEPHENS BROENING

By STEPHENS BROKENIG PARIS (AP) — The Prench franc is in deep trouble after being hit by last spring's stu-dent-worker strikes, then at-tacked by speculators. The situation has' changed since President de Gaulle boast-ed less than two years ago: "We have made the franco or of the most solid currencies in the world."

#### Cutback-Or Taxes?

Premier John Robarts' warning that Ontario must cut spending or face a "financial nightmare," is another indication of inflation-

Whatever the recommendations of the materer the recommendations of the Smith report on taxation, however, and of the legislative committee which studied it, Mr. Robarts evidently favors cuts in spending over ing or raising taxes. In a spe London he said that to horrow or raise taxes would penalize the capacity of the economy to generate income and restrict the economic on which our

The plan then is to cut spending and Mr. Robarts says this will involve significant reductions in education, health and welfare economies following a study of programs regarded as "necessary and efficiently managed."

In our affluent society, typified more perhaps by Ontario than by any other region of Canada, it is clear that even amid such affluence the coffers are not necessarily

As for Mr. Robarts' apparent reluctance raise taxes, this runs counter to the recommendations of the legislative committee which studied the Smith report. If these are adopted Ontario can expect higher taxes and more taxes — a major provision being the elimination of existing exemptions from retail

Which is it going to be then - the cuts in spending Mr. Robarts envisages or an eventual raising of taxes. Or can we expect

#### Quebec Move

That the province of Quebec increasingly is becoming a thorn in Canadian flesh and in Prime Minister Trudeau's plans for unity d equal rights for both English and French, is plainly evident from the statement of Jean oel Tremblay.

The Quebec cultural affairs minister

proposes that legislation must be passed "as on as possible to make French the working language in political, accial, administrative and economical affairs and even in public

Mr. Tremblay's aim is to assert the will of the majority in Quebec. And this, despite the fact that there is a substantial English minority and the English language is working language of the province and of Canada at large

It is a neat trick, this proposal of Mr. Tremblay's, if it may be described thus Universal imposition of French on Quebecers, both English as well as French, would go far toward turning Quebec into a virtually separate state within Canada.

Whether it would work is another matter. At this point the Quebec government could find itself with another cultural revolution on its hands — one involving English Canadians and other minority groups who speak English.

Ottawa's reaction to this fresh effort to drive a wedge into Canadian unity is significant. Mr. Trudeau, while expressing disappointment, said there would be nothing institutional in such a move.

unconstitutional in such a move.

That it flaunts English and English
Canadians, of course, is obvious and Mr.
Trudeau made this point clear when he said
Quebec was contemplating withdrawing
privileges from the English-speaking minority
at a time when it was hoped language rights
would be excluded subsective. would be extended minority groups by other

In any event, the initiative is with Quebec in this matter and it is difficult to see what the federal government can do about it. Before long French may be the working language of Quebec - a fait accompli unless, as we have suggested, the English dig in their heels and say "No." But will they?

government, with federal aid through the Agricultural and through the Agricultural and Rural Development Act, in seek-ing to bolster a growing blue-berry industry that could become one of the most flourishing in North America.

Quebec City.

That represents \$2,000,000 in income to the 3,000 to 4,000 rural families and workers involved who were paid a minimum of 20 cents a pound—dou-

ble the 1867 price.
Georges-Henri Poirier, manager of a blueberry experimental
station at St. Leon de Labreque-where there are 20 researchers from Laval University supported by Quebeecity supported by Quebee is the
biggest single blueberry produce
er in Canada.

At this time of the year Canada's United Appeals and Community Chests conduct their annual fund-raising campaigns to help finance the many voluntary agencies who do so much for the poor, the handicapped, the aged and the mentally and physically ill.

modern life increases in complexity, social and health problems ore acute. Government participation in these areas is growing, voluntary organizations are a vital force in ensuring that the ngs of life are made available to all.

The United Appeal and Community Chest campaigns, serving those areas of need not within the responsibility of government, deserve the wholehearted support of all Canadians, and to this end I am happy to lend my personal support.

Ylum Stanus

GOVERNMENT HOUSE OTTAWA

Again this year I am happy to commend to Canadians the United Appeal Campaigns which will take place in 140 Canadian cities, towns and villages. The combined goal is nearly 50 million dollars which will give essential funds to some 2,200 local, provincial and national voluntary agencies to carry on their

More than 300,000 volunteer organizers and canvassers will give their time and effort to the campaigns without thought of compensation. Theirs is a thankless job except for our sympathetic response, and their own inner conviction that "The Lord Toveth a cheerful giver". Not even governments, with their many agencies and resources, can take the place of those who work and give for love of their fellow men,

Altogether, the United Appeal Campaigns, and the agencies which they support, have a fine record, deserving of our encouragement and participation.

Robert Michines Aufumn 1968

The progress of our communities depends on the individual acts of citizens - for it is what we believe and therefore, what we say and do that shapes their future development.

Local United Appeal and Community Chest campaigns are among the prime forces to initiate community improvement. They help to finance health and welfare agencies, to develop new services and to locate new areas of need which can be met by voluntary action.

In doing so, they enable all of us, in some measure, to work for the well-being of these communities and to participate effectively in making Canada a better place in which to

It stands to reason that because winter conditions vary from place to place, one kind of home heat oil just infer tellable for everywhere.

Texaco knows this. That's why Texaco heating oil s'climate controlled' for our locality.

Morsover, our complete Texaco Home Heat Service, including 'climate controlled' oil, doesn't cost a penny more. See us for full details.

## Winter Wheat Insurance

The Crop Insurance Commission has set a deadline of October 1st. Late seeded crops are not insurable.

Don't delay, you can insure your winter wheat for 60%, 70% or 80% of your average farm yield. This comprehensive coverage is designed to guarantee "out-of-pocket-expenses."

If your average yield is 30 bushels an acre, you can guarantee 50% of your crop production for as little as 62c per acre.

## Meet our sixth mileage ingredient.

We measure him for a lot more than a uniform.

If he's going to be a Shell dealer, he should be a mileage expert. He should be just as effective as those five mileage ingredients in Super Shell.

## Does he know the answers?

We don't worry too much about his smile. Or who his brother is. We just care about what he can do for you when you stop at his station.

From our research chemists to our dealers, mileage is our business. We think about everything that can help you go farther.

Tire pressure. Spark plugs. Air filter. How fast you drive. The way you drive. These are just a few of the factors that affect mileage.

We make sure every Shell dealer knows them. And a lot more. So when he fills your tank, the mileage ingredients in Super Shell can really show off.

5 ingredients for good mileage Super Shell has froe ingredients for good mileage.

(1) Platformate contains petroleum molecules with extra energy built into them.

(2) TCP works to keep spark plugs from misfiring.

(3) Butane helps give fast starts. (The faster you start, the less gasoline you use before you get going.)

(4) A detergent fights the deposits that can build up inside the carburetor. These deposits hurt your mileage.

(5) Mixed Pentanes help your engine warm up quickly to prevent misfiring, bucking, coughing and wasted fuel. You get good mileage from these five ingredients in Super Shell. You can get even better mileage with the help of our sixth ingredient.

Mileage is his business.

Try him-if you'd like to go further.

Mileage is our business

## Friendly Giant Needs Help

Russia's success with its around the moon probe has brought comments from around the globe that its space position is now so far advanced it might change the balance of power in the world today.

It is a sobering throught, especially when it is realized that despite what non's beliefs may be, the only country which can challenge Russia is the United States.

Russla is the United States.

Struggling as it is with its conscience on Vietnam, its internal problems of poverty and lawlessness, this is no time for the rest of the world to sit in harsh judgment.

If for no other reason than self preservation, western powers must quit kicking the shins of the friendly giant.

## Trenton Schools Tops: Ketcheson

TRENTON — "Providing the best education possible along with the best learning facilities has always been and will remain to be a challenge for me."

This was the way Stan Ketcheson, chairman of Treston Board of Education, analyzed the enthusiasm he for his job. And he can be justifiably proud of the job he doing.

For Mr. Ketcheson, describing the present School system here involves a gathering of superistives.

"I firmly believe we have the best schools in the area," onlinued the board chairman,

"Our administration is excellent, we do not suffer from overcrowding and our schools are staffed by superb teachers."

This is all done economically for, as Mr. Ketchesc pointed out, "... the people are getting the best possib education setup for a low cost."

"We have one of the lowest, if not the lowest per-capital cost for education in the area."

- And Mr. Keicheson has some intere the new Hastings County School Board.

"This is a good thing," he excusined, "because it means equal opportunity for all . . . smaller communities will benefit from courses taught only at larger centres."

"I believe it will take three years for the new board to get into the swing of things," declared Mr. Ketcheson. For maxt people the education and our youth is a job which, depending on how well it is hausted, will decide the direction the future is to take.

For Mr. Ketcheson the key to doing a good job is he calls "preventive maintenance." "It saves mosey in the long run — money that can be spent on better teaching methods and a better staff," he said.

"That's why I believe our children are getting the best possible education."

for the Quinte area, bringing
the finale of a two - week
warm spell that marked the
end of summer '68.

Temperatures, which for days had been above the sea-sonal norm, now are expected to drop, says the duty fore-caster at Canadian Forces

Coming days will be a con-trast to the balmy warmth that has left a lingering impres-sion of mid - summer with Quinte dwellers. Actually, fall officially started Sunday.

The mercury, says the weatherman, may drop 10-15 degrees with highs in the 60s and lows in the mid-tos.

Detroit in six range There . . . I've said it.

But the logic behind that World Series forecast is, admittedly, due as much to sen-timent, as anything.

And St. Louis have been greedy of fate with Series wins, collecting a pair in the past fear years.

permani-Series famine.)

Il's nice to see the major-lengue wealth shared a hi. Sur il makes it tough to pick a favorite when — like in last year's St. Louis-Boston matching — you have to choose between teams that have had little opportunity in the past couple of decades for some Series glory.

Soa in the face of 17:10 St. Louis urg-ings from Las Vegas, this fella is pulling for a Detroit champagne party.

Actually I've got more than sentiment in my dugout.

"Persistent" because they don't like any help from the bullpen. The Tiger mounds-men had a complete-game string of 12 end-ed list week, and 31-game prinner Denny McLain went the distance in 28 of his first

But St. Louis manager Red Schoen-dienst admits Cardinal hitting is "down shout 25 per cent from last year" and agrees with those who give pennant credit to hard-throwing Bob Gibson.

Gibson's 15-game unbroken string of a starting in June was largely respon-tor the commanding Card lead Sept.

For those who envisage another Series pliching duel — a la Lonborg-Gibton in 1967 — there's one statistic of Denny Me-Lain's that could carry more weight than his 30-plus win total.

The Tiger mound are holds the team record for most home run pitches (42 In 1966), and has aiready tossed more than 30 this season.

BLADES TO PEDALS IS Bob Boucher's slory. A member of Canada's specdskating team at the Winter Olympics in Grenoble, the 24-year-old Halfax native is a member of the Canadian cycling team competing in next month's Mexico City Suimmer Games. (CP Photo)

# Camaro, Chevelle, Chevy Nova. Who needs to say 'announcing' or 'new' or 'better.'

The way the '69 Camaro hangs together, it's no wonder the other aportsters are gnashing their gears. You won't find a tacky piece of gingerbread anywhere. Or a line that isn't leaning into the wind.

Think of the '69 Chevelle as the 'concentrated Chevrolet.' It's got Big Chevrolet features, but a naturally active personality

Hot on the heels of coach Punch Im-lacin's "no-aideburns" edict to Toronto Maple Leaf hopefula comes an urgest — if poorly photostated builetia from the 115,000-mem-ber Canadian Union of Public employees.

And then CUPE president Stanley Little fees as with unbellerably anticipated phrases like "concern about the dignity of working people", "athletes being bought and sold like cattle", and "bringing prefessional stilletes out of the dark area."

One problem, though, Stay — none of rank-and-filers I've met struck me as type that would particularly go for side-ns on anybody but a Father of Confedera-

Degrite presenting a classic example of over-reaction, the CUPE support-for-hairy-thletes exampling does resurrect a valid query: does an employer have an interest in his employees' appearance? Of course, ideally, the cut of anyone's haly or clothing shouldn't bother anyone clse, but things just don't work out that way.

ease, say manys just own work out out way. So we think if Punch Imlach, for in-stance, can prove that Brace Gamble's side-huras affect the gradic's performance by-tue of, say, reducing his peripheral vision, then the smooth-lopped Leaf mentor has every right to order his charge is the seisa-

The thing is, the Imlachs and the Stan-ley Littles.— though on opposite sides of the barber's chair.— each in their own way make a mountain out of the sideburns mole-burn.

# Presenting Cadillac for nineteen sixty-nine

Evan Cadillac has never built one like this! The craftsmen who engineer and build Cadillacs are accusiomed to creating the finest cars, but they take special pride in these brilliant 1969 models.

A single glance at this automotive masterpiece re-veals its striking poise and beauty, it is dramatically new, yet unmistakably Cadillac, For 1969, Cadillac's traditional dignity is complemented by youthful new styling that is unique in the luxury field.

New concepts in comfort and convenience. The 1969 Cadillac is completely new inside, with major innovations in design, convenience and decor. A

y contoured "control center" instrument par makes controls even more accessible, and virtually surrounds passengers with luxurious protection and convenience. And they'll ride refreshed on a unique Dual Comfort front seat, available on most models that has one adjustment for the driver, and a separate one for front-seat passengers.

A smoother, more responsive engine.

Cadillacs great 472 V-8 engine—the largest V-8 ever to power a production passenger car—is smoother, quieter and even more responsive. Nover before has power been employed so efficiently in the operation

of an automobile and its power-operated equipment. Other mechanical refinements include new safety features and an exclusive "closed" engine cooling system. (It doesn't have to be opened to check the coolant level.) Front disc brakes are provided.

Your judgment is invited.

There are eleven different models of the 1969 Cadillac more than is offered by any other luxury car manu-facturer. Each is truly a masterplece from the master craftsmen. Your authorized Cadillac dealer welcomes
your personal inspection of this once in diffetime motor car. Drive one at your earliest opportunity.

himself. There are many of us who deplore the grooming habits of a percentage of today's youth. In many cases this is compounded by a scruthy, dirty and unkempt appearance. These are things with which we can readily disagree. But academic standards presented by a principal and his staff would seem to be the matter of primary concern in the educational system.

system. If parents and teachers can not win "the battle of the hair" without resorting to force then they are the losers.

The student, when he graduates after having been exposed to the best of teaching available, will find out soon enough for himself if his long hair is a detriment.

Had a bit of a traumatic bilingual ex-

From the maliman came a glamorous-looking dessier on the 1963-63 Montreal Can-adiens, with a brilliant glossy cover photo of the red, white, and blue-clad Habitants.

Well, my high school Francais got me through that one all right — obviously swarthing concerning the writing of a novel about the Canadiens journeying through an annex of the Montreal Forum.

But when I came across something about Minnesota North Stars' having "seas-ces de repechage," I began in get worried I might really be missing something im-portant,

It was with great relief that, several heavily accented pages later, I came upon the "other" version of "Potins des Canad-leas," which I discovered were "Hab Notes."

Praise be to Senator Biolson's monstache the Canadiens' public relations staff didn't leave me in a bilingual lurch — or abould I say: "me laissent on binde."

And as usual, Cauadians will get an irwave opportunity to hear and see the forld Series debate first-hand.

The CBC will breadcast each Series game is its entirety, beginning with 1.45 cav-erage of the Oct. 2 and 3 St. Louis games.

Gamen three, four, and five are schedul-ed for breadcast from Detroit Oct. 5, 6, and 7, with 12.45 starting times.

If the Tigers and Cards are still going at it, the scene switches back in Busch Sta-dium Oct. 9 and 10, with CBC programming cutting in at 1.45.

Ropefully the CBC will continue to cling in its coverage of the annual baseball aper-tacle, and not let it begin to crode like that of Canadian football and National League bockey in the face of competitive bidding.

Everyone seems to be adopting a "wall-ind-see" stiffude about serier heckey in the sty, and we can't really blame them after and season's dismal Ho-Hawk performance.

But if there's a way where there's a will, re's no way the local seniors can't vasily rove their showing this semester.

Enthusiasm fairly gurgles from new daying-coach Davey Jones, who admits that he cinh's much-rumored internal difficulties ideal give him much come for optimize as secontly as a few weeks age.

The decision by club backers to "give it a more ge" and an inspiring response by specting players at a recent meeting have us this year's Mo-Hawk tribe of suppor-ess prinkings of bope, even if they don't m to be showing it.

Maybe that's why they don't exactly leap at the opportunity to buy up the 600, ad-vance-sense tickets.

Then again, we don't feel the club directors are exactly conducting a high-pressure sales campaign for the \$30 season sest-rearantees either

the message through to the players that sejor hockey is no place to expect to earn a
living.

We'd like to carry the argument a bit riher: — senior hockey can be just what a fans make of it.

If they expect world championships any-more, they'll be in for a disappointment as big as Banny Ahearne's complaint file.

A late start — the prospective Me-Rawks went get on skates before Sunday or about 10 days before their schedule open-er — will mean plenty of tough training camp settions.

And if the fass can find it in their beck-ey-leving hearts to give the Mo-Hawks as much support as they have in the past, they will have made their contribution.

#### Quebec in Spotlight

Robert Stanfield's comments that Quebec Premier Daniel Johnson literally gave his life to his country is now borne out by the demanding schedule the Union Nationale demanding schedule the leader had set for himself.

On his last day of life, and his first working day since a 12-week convalescent period after a mild heart attack, Mr. Johnson put in a punishing 19 hours.

It encompassed an hour-long television press conference, a 250-mile airplane flight, a lour of a power project, a cocktail party and an official dimer. It was a work day which would stagger the most healthy of individuals.

Mr. Johnson's contribution to the national unity of Canada is only now being realized when political observers look back on his years of office and the uncertainties of the

The question of a successor to Mr. Johnson is naturally paramount in the minds of both observers of the Quebec scene and members of the Union Nationale.

Outside the province the favorite is probably Jean-Jacques Bertrand, the man who seld the justice portfolio in Mr. Johnson's government.

Bertrand is looked upon as a keen federalist who would be likely to move towards a closer understanding between the English and the French in Quebec.

Mr. Bertrand's dimming enthusiasm for politics in the past few years is a factor which might have considerable influence at the party caucus next Wednesday when a new leader is

The caucus could prove to be one of the most important political meetings held in Canada since Confederation.

#### A Bridge Might Help

As a long range tourist aid, Belleville city council, chamber of commerce and industrial commission might give some thought to supporting the bld for an international bridge linking Kingston and Cape Vincent, N.Y. via Wolfe Island.

Molte Island.

Interests in the Kingston area and in Northern New York State have been promoting the bridge possibility for fire years, arguing the present crossing at Ivy Lea, 30 miles east of Kingston, is reaching its capacity.

The province of Ontario has announced a feasibility study will be available in a month of two.

At present, the Ivy Lea bridge handles At present, the Try Lea bridge handles well over a million cars a year with many of them sandwiched in to the tourist months. Bridge officials boast that only three stop lights are on the four-lane route from the populous New York city area to the bridge.

Area municipalities might be willing to lend their support to this proposal, for alternate plans for landing at the Kingston end show possible sites as five miles east of Kingston or just on the western outskirts of the city limits.

The latter terminal would put the U.S. tourist about 60 miles closer to the Prince Edward and Hastings playgrounds than the

Even one percent of a million automobiles would be a nice bonus for the area.

#### Join the Chorus

With more than just a little bit of nostalgia these days, it is not difficult to sing few lines from September Song — "It's a long, long time, from May to December, but the days grow short, when you reach September."

anys grow short, when you reach september.

It, unfortunately, is not the song that
comes to mind when you drive up the Bridge
Street West hill. It has been a weary summer
for motorists who have plowed around detours,
over bumps and in and out of pot holes.

No blame can be attached to the contrac-tors in the two-phase job of first installing sewers and then paving. Sewer installation was completed within the time span allowed. The paving contract calls for completion within 80 working days of the Aug. 28 start— a date bringing it into the middle of December.

Perhaps city council could have been a little tougher in its completion deadlines. In any case, it makes little difference now unless it is a lesson to be kept in mind.

So, as the sun sinks slowly into the west and a light snow begins to fall, ease your tensions by joining the west end chorus in a few bars of "it's a long, long time...."

in a legal office would be
helpful. A requirement also
exists in the Trenton area for
plant workers for canning and
factory work. These workers
must be willing to work on a
shift basis. As in previous
weeks, there is a constant
shortage of registered nurses.
In the waste distintion bear. Mrs. Beeby again in the chair.
A new acceutive was elected with Mrs. Andrew Clark
of Picton as the new chairman; Mrs. Isbester of Napanee the vice - president; and
Mrs. Andrew Benby of Picton,
secretary - tressurer.
